STATEMENT
In keeping with their Mission Statements, our schools work to develop an environment that supports the student and the family in areas that are governed through relevant Laws and Regulations.

CONTEXT
Our schools are places where a lived faith is as significant to a person as is the human learning that equips people for the future. Catholic education is conducted in an increasingly secular environment where a growing spiritual poverty impacts on how families maintain faith and human integrity. In addition, our schools also attract students and teachers from diverse family backgrounds. To ensure relationships are maintained, our schools are expected to understand the changing nature of families and the laws that affect them.

RATIONALE
To ensure that our College is able to maintain positive relationships with parents and students with a wide range of family situations and be required to implement all directions in legal matters regarding to obligations, responsibilities and opportunities in relation to matters involving their children’s education at school.
## SCRIPTURE REFERENCE

John 15:13 "A man can have no greater love than to lay down his life for his friends."
